

Specification text for applications involving 3-dimensional monitoring of neighbouring buildings during excavations and the whole building phase.

Item Description of works

Prior to and during excavation works, attach, fix with 2 mechanical fixings and number survey markers at several levels, at 3 m intervals and at all corners. Then proceed to measure the XYZ coordinates of the markers, take photographs and record the measurements. Carry out control measurements as requested by the site management. Survey markers by Messrs. Rothbucher Systems, Bayerisch Gmain, Tel.: +49 (0)8651/2749 Fax: +49 (0)8651/3090, including fitting and 2 mechanical fixings.

We recommend article nos. **RS30**, **RS50** or **RS60** in red or grey.

For all corners we recommend article no. **RS80** in red or grey.

In difficult positions for measuring, e.g. where space is restricted, we recommend article no. **RSK80** in red or grey.
