

Specification text for applications involving 3-dimensional monitoring of sheet piling and other earth retaining structures, including documentation of heights and axes

Item Description of works

Attach survey markers at each axis point, at a level specified by the site management. Use a waterproof pen to indicate the elevation, axis and position number on the markers and measure and record their XYZ coordinates. Carry out any control measurements as requested by the site management. Survey markers by Messrs. Rothbucher Systems, 83457 Bayerisch Gmain, Tel.: +49 (0)8651/2749 Fax: +49 (0)8651/3090. Use article no. RS including fitting using self-adhesive backing and mechanical fixing.

We recommend article nos. **RS30**, **RS50** or **RS60** in red or grey.
