

Specification text for securing façade survey points and/or measuring the position of glass and natural stone cladding façades

Item Description of works

Attach and mechanically fix one survey marker per axis on the façade at each storey level in order to permanently secure all outside survey points. Before fixing the markers, use a stamping mould or waterproof pen to indicate the elevation and axis number on the marker. Survey markers by Messrs. Rothbucher Systems, 83457 Bayerisch Gmain, Tel.: +49 (0)8651/2749 Fax: +49 (0)8651/3090. Use article no.: RS..... including fitting, using self-adhesive backing and at least 1 mechanical fixing.

For measurements taken with all usual measuring instruments we recommend article no. **RS70** in red or grey.

For measurements taken with tachymeter, ‘Totalstation’ and other measuring instruments concurrently, we recommend the articles **RS50** or **RS60** in red or grey.
