

Specification text for quick positioning along the whole length of the planned road

Item Description of works

Fix survey markers at suitable locations along the whole length of the planned road, i.e. on house walls, site huts, power or telephone masts etc., and measure their position. Use a stamping mould or waterproof pen to indicate the position numbers on the markers. Please ensure that at least 2 or preferably 3 markers are attached within reach. Survey markers by Messrs. Rothbucher Systems, 83457 Bayerisch Gmain, Tel.: +49 (0)8651/2749 Fax: +49 (0)8651/3090.

Use product no.: RS..... including fitting, using self-adhesive backing and at least 1 mechanical fixing.

We recommend article nos. **RS30** or **RS50** or **RS60** in red or grey or no. **RS AKZ6** for larger distances. On metal substrates, a 2-component adhesive has to be used that ensures firm fixing.
